

New in May 2026

Heatpunk UK has been updated to enact various MCS changes to operating temperature and air change rates.

- [Operating temps for post-2006 buildings have been increased in almost all rooms.](#)
- [Air change rates now default to 0.5 for all rooms except internal.](#)
- [Using the standard ventilation method now uses a fixed default air permeability of 12 m³/h.m² @ 50 Pa rather than using an occupancy-based estimator as before.](#)

Revision #4
